360° Cybersecurity Solution for SAP Customers

Threat Detection & Monitoring

Proactive threat detection, including zero-day vulnerabilities and CVEs. Real-time analytics and SAP threat detection 24/7/365. Interface Traffic Monitor to secure your SAP environment.

Integration & Automation

Integration with SIEM and SOAR systems to support centralized SOC processes. Prebuilt use cases, detection patterns, and automations to accelerate response times.

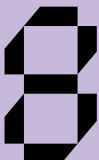

Vulnerability & Patch Management

Comprehensive vulnerability management to assess security, compliance, and code quality. Patch management and virtual patching to rapidly remediate security gaps.

Platform & Compliance

SAP-certified, natively integrated platform covering the entire SAP portfolio. Dashboards that deliver full transparency and support reliable compliance with regulatory requirements.

SAP Security as a Service by 8com integrates SAP systems into the SOC, enabling continuous, automated real-time monitoring (24/7/365). With SecurityBridge, threats are reliably detected, vulnerabilities are managed, and compliance requirements are met – holistically and in a certified manner.

20 years of advantage – 20 years of cybersecurity expertise

For over two decades, we have focused exclusively on cybersecurity – with our own infrastructure, exclusive certifications, and deep methodological expertise.

Our SOC is the result of years of experience and continuous evolution. We stand for a level of security that delivers when it matters most – meeting the promises others only make.

We take a **holistic approach** to cybersecurity.

- ✓ **Managed Security Services**
- ✓ **Penetration Testing**
- ✓ **Security Awareness**
