

FIGHTING CYBERCRIME

Security Operations Center

 **Advanced**

Enhanced visibility. Rapid response. Maximum security.

PROACTIVE, NOT REACTIVE

Advanced Threat Analysis

24/7 Detection & Response and Darknet Monitoring

8COM operates the only SOC in the DACH region certified to ISO 27001 based on BSI IT-Grundschutz

Operated within a German RC4 high-security environment:

Our highly qualified SOC analysts are on duty for you 24/7/365, exclusively from this secure location and in your language (German/English).

SOC Solution Package | Advanced

XDR as a Service

Extended Detection & Response with Palo Alto Cortex XDR Pro (C5-attested) or Microsoft Defender. 24/7/365 protection across endpoints, cloud/SaaS, identities, and firewalls/VPNs. Includes XSOAR, DFIR, and unlimited alert handling, plus service and support.

Best of Breed

Our SOC technology stack is guided by independent effectiveness testing such as the MITRE ATT&CK® Evaluations. Thoroughly validated – technically, organizationally, and strategically – to ensure uncompromising quality.

Extended Threat Hunting (XTH)

Hypothesis-driven threat hunting to proactively identify hidden or advanced threats that evade traditional detection methods.

Identity Threat Detection & Response (ITDR)

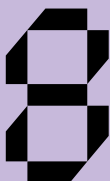

Protection against insider threats, credential theft, and lateral movement through in-depth analysis of user and host activity.

Darknet Monitoring

Monitoring and analysis of digital identities based on the world's largest commercially available darknet database (DarkOwl) for the early detection of compromised information.

Optional SIEM Integration

Optional SIEM integration extends the monitoring capabilities of Cortex XDR Pro to include additional systems, such as Sophos and WatchGuard firewalls, as well as other VPN and remote access solutions.

**More depth. More integration. More protection.
Built for the future.**

SOC Advanced extends core protection with identity monitoring (including the darknet), cloud security, and monitoring of firewalls and VPNs – ideal for complex IT environments.

20 years of advantage – 20 years of cybersecurity expertise

For over two decades, we have focused exclusively on cybersecurity – with our own infrastructure, exclusive certifications, and deep methodological expertise.

Our SOC is the result of years of experience and continuous evolution. We stand for a level of security that delivers when it matters most – meeting the promises others only make.

Security that thinks ahead.
