

THE NEXT LEVEL

Penetration Testing & Red Teaming

OSCP-certified experts – real-world attack simulations

UNDERSTAND - DETECT - ACT
Maximum Security

**Always one
step ahead of
cybercrimi-
nals.**

Realistic simulation of attack techniques – our security experts test your systems using the same methods as cybercriminals, uncovering vulnerabilities in real-world scenarios.

**No breach – no panic –
no downtime.**

Your Benefits

- ✔ Identify risks early – and sustainably strengthen the resilience of your IT infrastructure.
- ✔ Leverage optimization potential – and increase the effectiveness of your existing security systems.

Red Teaming – the next step

We simulate highly realistic attacks – testing not only your systems, but also your blue team. This gives you a clear view of how resilient your security architecture truly is.

Flexible packages

Our penetration tests and red team engagements are available in tiered service packages – tailored to your needs. For more details, please visit our website.

20 years of advantage – 20 years of cybersecurity expertise

For over two decades, we have focused exclusively on cybersecurity – with our own infrastructure, exclusive certifications, and deep methodological expertise.

Our SOC is the result of years of experience and continuous evolution. We stand for a level of security that delivers when it matters most – meeting the promises others only make.

We take a **holistic approach** to cybersecurity.
